

Entry control for home and office

Power supply Spider W5

Spider W5

- Specially designed for use with standalone access controllers from Lokus, Rex or Regis family
- Strong enough to power one standalone controller and one DC door strike
- Pluggable connectors
- Spider W5 has outside connectors with no connection to its internal circuit board (connection points for door switch or push button or eventual RS-485 communication with other Rex standalone controllers, controlled by access control program), which makes connection of accessories very easy
- Push button switch and door strike status input connectors
- Door-strike output connectors
- Additional 5A relay – it triggers together with door-strike output

TECHNICAL DATA

- **Dimensions:** 120x80x33 mm
- **Operating voltage:** 230 V AC
- **Output:** 12 V DC, 0,8 A
- **Primary fuse:** F100, 250 V 0,25 A
- **Secondary fuse:** F101, 16 V 1,1 A
- **Pluggable connectors**
- **Door status and push button input connectors**
- **Door strike transistor output connectors**
- **Power consumption:** less than 1 W + load
- **Operating temperature:** +5 to +40° C
- **LED status notification**
